Dear Friends:

Dakshana successfully completed its 9th full year of operations in 2015. Since inception in 2007, the IITs have accepted 1,146 Dakshana Scholars (out of a total universe of 2,044 Dakshana Scholars) – a success rate of 56.07%. Not too shabby – considering that the IITs accept under 2% of applicants. In 2016, out of 329 Dakshana Scholars who were prepared for the test, 233 made it – a success rate of 70.82%. In addition, 25 scholars who attempted the IIT entrance test for a second time in 2016 were successful.

Dakshana of the Alums; By the Alums and For (the Creation) of Alums

Included in the above numbers is our first batch of 78 scholars at Dakshana Valley. This is our new one-year program for students that opt to take a year off after high school and focus purely on the IIT entrance exam. 61 of these 78 scholars cracked the exam – a success rate of 78%! The success rate is even more remarkable considering that these scholars were 100% prepped by Dakshana alums – kids that we had sent to the IITs and NITs just a few years back. Nearly all of the faculty and academic staff that made this happen are under the age of 24! It has been my dream and goal that, eventually, virtually all facets of Dakshana will be managed by our alums. Most of our recruiting efforts are focused on the alums. I may be biased, but I think IIT-trained engineers rock. I am excited to have these driven, high-potential folks who want to change the world join our team.

A mind is terrible thing to waste.

- United Negro College Fund (1980s TV Ads)

In the 1980s, I remember seeing wonderful ads by the United Negro College Fund. What I still remember about those ads is the final tag line: *A mind is a terrible thing to waste*. It is likely that, if I had never seen those ads, there might not have been a Dakshana. Those ads (and especially that tagline) created a long debate in my mind on how does one go about righting past wrongs? How does one level the playing field? How does one create a society where the innate talents of every individual are fully unleashed? I wrestled quite a bit with the pros and cons of affirmative action as a young man. Sometimes I was solidly for it. Sometimes I was against it. For what it's worth, after having had a front row seat on Dakshana's affirmative action endeavors for nearly a decade, I am solidly in favor of affirmative action. If there ever was a no-brainer, this is it.

America, more than any other country, embraced its sordid past – and genuinely tried to get the enormous talent amongst its people fully unleashed. There is still a lot of work yet to be done. But what I love about this country is that, with every passing decade, it becomes more and more of a meritocracy. And it is these subtle core strengths that gives me confidence that no nation will attract better talent or have a more promising future than America. America *is* great and its best days lie ahead.

Nearly seventy years after the geniuses at Young & Rubicam came up with the tagline, it is helping salvage thousands of minds on the other side of the globe that likely might have gone to waste. A nice unintended result.

> *Give a man a fish and you feed him for a day. Teach a man to fish and you feed him for a lifetime.*

In the mid-1990s, my parents brought to my attention the plight of one of my younger cousins. This 21-year old young man had just finished a business degree in Mumbai and had no job. They asked if I could help. I thought it was worth a shot. I asked him if he'd be willing to relocate to Delhi, live with my parents, work on another degree and work part-time to build software engineering skills.

I knew the founders of a tiny software consulting firm in Delhi. I asked them if they could employ my cousin at zero pay and teach him Visual Basic programming. They told me they'd be happy to do the needful if he came with his own desk, chair and computer. I bought these things for my cousin and other relatives chipped in and paid for the diploma course in Software Development, and we got him enrolled.

Within twelve months, my cousin was a crack programmer, moved back to Mumbai and had a plethora of job offers. When I look back on what it cost to transform his prospects, it was quite cheap. Just a few thousand dollars. Those dollars were fundamental to him going from zero to hero. Tremendous bang for the buck.

The experience with my cousin, Warren Buffett's influence, the analysis of the Super 30 Model, Muhammed Yunus' Grameen Bank model and the tagline of the United Negro College Fund each played a seminal role in the birth of Dakshana. If you take away any of those critical data points, I might still be clueless and groping in the dark. Did I mention that I have no original ideas? That I am *the shameless cloner*.

A Few Firsts

For most of our existence, we have been focused on selecting scholars from the near 600 JNVs across the country. In 2016, for the first time since we started working with the JNVs, we selected scholars from other government schools. It is a small start. We have 12 non-JNV kids being prepped at Dakshana Valley for a year. Also, for the very first time, Dakshana has begun coaching kids for the medical entrance exams. We have two programs. One is the standard 2-year program for medical prep which is being run at JNV Pune. And the second is the 1-year program at Dakshana Valley. There is very little difference between IIT entrance and medical entrance exam prep. Instead of focusing on Physics, Chemistry and Mathematics, the medical folks focus on Physics, Chemistry and Biology. Most of the faculty is interchangeable.

Why medical? I've always believed Dakshana should maintain a laser-like narrow focus. However, even though we never tried, we have several doctors amongst our alums! Many times kids at sixteen do not know their calling in life. In general, Indian girls prefer going into medicine over engineering. The addition of medical coaching allows Dakshana to coach more girls. And I am all for that. They face significantly higher societal and family roadblocks in their path to becoming engineers or doctors than the boys do.

While large swaths of parents in rural India are anxious to get their daughters married once they are over 18, they do not object to their daughters taking the Dakshana Selection Test. If their daughters get selected, there is plenty of pressure on the parents to allow the girls to join the Dakshana coaching program. And once they get admitted to an IIT, it is the rare parent that dissuades them from attending. Many of our female scholars tell us that, if they had not been selected by Dakshana, they'd have been married off and had a couple of kids before they were 22. Many may not even have gone to college. Thus, Dakshana is delighted to help unlock the potential in these awesome future female leaders. I believe many of our female alums will go very far in life. The addition of medical coaching means that our aggregate percentage of female scholars is on the rise.

These are very early days at Dakshana Valley. It has already produced its first crop of IITians. However, we are presently significantly underutilizing even the existing infrastructure. We have about 100-odd kids at Dakshana Valley, while the present infrastructure can support up to 400 kids. Eventually, we fully expect Dakshana Valley to hold thousands of scholars annually, the bulk of which will not be from the JNV system. Dakshana Valley is an investment that will truly deliver on its potential in the decades ahead. While it was a huge bet for Dakshana, I am so glad we moved forward with this $10 million+ investment. While the risk associated with the valley purchase declines with each passing day, it was and still is a risky endeavor for us. I learned from Warren Buffett that, if we want to have any chance at bending the future arc of humanity, we have to swing for the fences. Dakshana Valley is the biggest swing we have taken in the 10-year history of Dakshana – and no one is happier about it than me.

Non-JNV Government Schools

In many ways, the JNV system is a "Rolls-Royce school system." The campus infrastructure, quality of teachers and per-student spending is more than ten times that of virtually all other government schools. This is why we get such great talent and results. We are drawing from an incredible merit-based elite magnet school system. Much of the rest of the hundreds of thousands of government schools in India are terrible. However, while the JNV system hosts some 200,000 kids, the rest of India's government schools "educate" hundreds of millions of kids. It is a massive system – and there are millions upon millions of promising kids whose talents are simply never harnessed. The sheer waste of outstanding brain power is staggering.

Finding talented kids from these loser school systems is very, very hard. Our first problem is that we are trying to find exceptional 12th graders who are 17-18 years old. These kids, for the most part, have had pathetic schools and teachers for all their formative years. We can test 5000 JNV kids and get 500 promising scholars from these government schools, but it is like finding a needle in a haystack. Perhaps one in a thousand or one in ten thousand may be worth testing. And then maybe 5% of those may have a good shot at IIT. But, no matter how hard it is, we have to find these diamonds in the rough. Dakshana currently spends very little on scholar acquisition. Our costs to find these promising diamonds may eventually be as high as coaching them. Thus, it may well be that, if we spend $2000/scholar on coaching, room and board, we may have to spend a similar sum to find them.

These are tough challenges, but Colonel Ram Sharma (CEO), Sharmila Pai (COO) and Commander Arun Mishra (CAO) are super excited about this endeavor and are focused on cracking the code to success here. Education in India is run at the State level. Each state and each city has its own school

system. These are entrenched bureaucracies that aren't setup to work with organizations like ours, but we'll be knocking on their doors and endeavor to partner with them. I suspect many may come along – kicking and screaming all the way. Stay tuned for all our trials and tribulations on this front.

2015 Financial Overview

2015 Dakshana Financial Overview
(in thousands of US$)

Cash and Marketable Securities on 12/31/14:	**$ 3,205**
Scholar and Overhead Expenses:	($1,034)
Dakshana Valley Purchase:	($1,283)
Construction Expenses:	($907)
Contributions by Donors:	$1,363
Contributions by Pabrai Family:	$487
Donated Coaching Services:	$100
Donated Corporate Services:	$2
Net Investment/Forex Gain (Loss):	($134)
Cash and Marketable Securities on 12/31/15:	**$ 1,697**

Starting with this report, I am changing our reporting from two segments to three. Historically, we have divided our expenditures into two categories: Direct Scholar Expenses and Corporate Overheads. With the addition of Dakshana Valley, there is now an elephant in the room. And it needs its own category. Our new category is going to be called "Dakshana Valley and Construction".

Dakshana Valley and Construction

Our purchase price for Dakshana Valley was approximately $10 million. We received seller financing and, as I pen this missive, we have paid off over 80% of the purchase price and intend to be done with the rest in the next 12-24 months. In addition to the payoff, Dakshana has made significant infrastructure improvements – as can be seen in the construction expenses. My family's net worth has declined in the last two years. In spite of this headwind, I am proud of the fact that Dakshana purchased and has mostly paid off Dakshana Valley.

Going forward, most of our construction and infrastructure expenses will be focused on the valley. I am confident that every dollar spent on this front increases the value of this remarkable property by well over a dollar. We believe Dakshana Valley is an asset that will deliver incalculable advantages to Dakshana in the decades ahead – well after Colonel Sharma and I have left the scene.

I encourage you to make the trek to Dakshana Valley. It is best to visit during the monsoons. The valley has 40 acres of orchards and, with a light nudge, the Colonel will see you off with a case of the valley's finest mangoes.

Direct Scholar Expenses

In 2015, we spent $1,034,000 on the Dakshana Scholar Program and related corporate overhead. In addition, T.I.M.E donated about $99,500 in JEE coaching services. Also, Seneca Global and Abhay Bhagat donated IT and accounting services worth $2,000, bringing the real total to $1,135,500. Of this amount, $850,500 was spent directly on the Dakshana Scholar JEE Coaching Program and $285,000 comprised of our corporate overhead. Let's examine the scholar expenses in a bit of detail.

During 2015, we delivered the equivalent of 676 scholar years of coaching. Of this number, 78 scholar years were for the 1-year program and 598 scholar years for the 2-year program. Both ended up costing us about $2,516/scholar because in the case of the 1-year scholars, room and board approximates $1,258/year.

<u>**Table 2. Dakshana Scholar Cost Data**</u>

Year	Cost/Scholar	Scholar Years
2007	$3,650	176
2008	$3,086	524
2009	$2,100	356
2010	$1,922	270
2011	$2,475	219
2012	$2,553	398
2013	$2,450	576
2014	$2,053	689
2015	$2,516	676

Corporate Overhead Expenses

Our corporate overheads in 2015 of $285,138 made up about 15% of our outlays (including our construction expenses). This seems extraordinarily high relative to the spending on the scholars. It is high, but unlike many other foundations, the Dakshana Scholar program is a direct program run by Dakshana. Many of these so called "overhead expenses" are actually core to the program. For example, when our staff makes frequent trips to the various JNV campuses, they are classified as overhead, but they are 100% focused on ensuring program and scholar success.

We typically do not make grants to other non-profits. We run these very labor and management intensive programs ourselves. With staff and scholars spread across eight remote locations in India, the logistical overheads and costs are quite significant. It does involve considerable travel, infrastructure and staff to execute. Also, it is hard to cut overhead below a baseline. Nonetheless, as we scale up our scholar base, we do expect the overhead expenses to become smaller portions of the pie.

Our fully loaded cost (including corporate overhead and excluding construction) was $2,636/scholar in 2015. For the forseeable future, a good rule of thumb for Dakshana is to assume direct scholar expenses in the $2,000 to $2,500 range and overhead expenses in the $250 to $500 range, leading to a $2,250 to $3,000 fully loaded cost per scholar.

The Cost to Produce an IITian

While the direct and overhead costs to support a scholar matter, it is the cost to produce an IITian that is the real benchmark that matters. It is the report card on how effective our spending and give back endeavors truly are.

Year	Direct Avg. Cost/Scholar	Corp. Overhead Cost/Scholar	Total Avg. Cost/Scholar	Percentage getting to IIT*	Cost to get a scholar to IIT

2008	$3,085	$828	$3,913	34%	**$11,500**
2009	$2,100	$382	$2,482	38%	**$6,500**
2010	$1,922	$232	$2,154	58%	**$4,200**
2011	$4,337	$580	$4,917	77%	**$6,400**
2012	$2,553	$367	$2,920	52%	**$5,700**
2013	$2,450	$339	$2,789	75%	**$3,700**
2014	$2,053	$490	$2,503	54%	**$4,635**
2015	$2,516	$422	$2,938	71%	**$4,138**

*next year

It used to cost Dakshana over $11,500 to get one scholar to IIT. This improved dramatically over the years – all the way down to $3,700 in 2013. I fully expect this all-in cost number to settle down at under $4,000 as we scale up.

Dakshana's Financial Health

From the outset, Harina and I have committed to give 2% of our net worth to Dakshana every year as long as our net worth exceeds $50 million at the end of any given year. Based on this formula, the amounts expected to give and actually given are as follows:

Table 4. Mohnish Pabrai and Harina Kapoor - 2% of Net Worth vs. Actual Giving

	Expected To Give	Actual Giving	Difference
2006	$ 1,067,983	$ 577,420	$ (490,563)
2007	$ 1,302,924	$ 3,355,350	$ 2,052,426
2008	$ -	$ 106,491	$ 106,491

2011	$ -	$ 1,044,480	$ 1,044,480
2012	$ 1,084,215	$ 200	$ (1,084,015)
2013	$ 1,511,701	$ 820,710	$ (690,991)
2014	$ 1,526,951	$ 3,404,487	$ 1,877,536
2015	$ 1,244,044	$ 486,660	$ (757,384)
Total	$ 8,906,801	$ 10,210,312	$ 1,303,451
Excess Given:		$ 1,303,451	

I am proud of the fact that my family and I have, over the last ten years, given over $10 million to Dakshana. A wonderful milestone. To me, this is impressive considering the fact that we have seen some very significant gyrations in our net worth during this period. The financial crisis of 2008-09 required us to make massive cutbacks. I wasn't even sure Dakshana would survive back then. Not only has it survived, it has thrived! Today, Dakshana is on a stronger footing than it has ever been. The credit goes to The Watsa family, our donors, Colonel Sharma and his tireless team. Thanks!

Dakshana's Wonderful Family of Donors

We had over $1.47 million in donations from our generous donors, with the Watsa family contributing C$1.27 million. Every dollar matters and we are very grateful to our wonderful group of patrons.

I am pleased to report that these gifted funds were used to buy books, improve scholar nutrition, create/improve classroom and dorm infrastructure, pay for coaching services for our scholars and, most importantly, fund a part of the Dakshana Valley purchase. Harina and I are grateful to our patrons for their generosity and wisdom.

And now, it's time for a short commercial break. With the home runs we are trying to hit, our needs are enormous. We need your support now more than ever before. Please make a gift to Dakshana by clicking/typing in this link:

http://www.dakshana.org/donate/donate.asp

We accept all major credit cards and Paypal. You can also send us a check (in US dollars or Canadian dollars or Indian rupees). And your gift is fully tax deductible. We can also set up automatic recurring monthly charges to your credit card. $99 a month for 24 months fully supports one scholar. You can even pick the scholar you'd like to support and we can arrange for interaction and meetings.

Donate your Beater Car. We'll even pick it up!

Through our partnership with Action Donation Services (www.actiondonation.org), Dakshana can accept donations of cars, boats, RVs, and other property donations anywhere in the United States. It is simple. You get a tax deduction. ARS picks up the vehicle (even if does not start!). Please call Action Donation Services at +1.866.244.8464, or us at +1.949.453.0609, or email Lynn Dann (ldann@dakshana.org) for more information.

The donated item will be picked up from a location of your choice at a time of your choosing at no cost to you. You will receive the maximum legal tax deductions and possibly a partial cash payment. This is a great way to get rid of that beater car and help a great cause!

Investment Gains

Unless donor funds are specifically designated by the giver to go into the Dakshana Endowment or given as part of our various auctions, they are kept in cash/money market and are spent throughout the year on various direct scholar expenses. We ended 2015 with about $5,800 of such donor funds in cash/money market. Contributions to Dakshana's Endowment usually get invested in equities and about 5% of the endowment account value at year-end is spent on scholar expenses.

Funds given by the Pabrai Family, Dakshana's Endowment or funds donated as part of the auctions are usually invested in public equities. We ended 2015 with about $1.5 million invested in a few public equities. Our realized and unrealized gains in 2015 were about $315,000. It is a wonderful result.

The Dakshana Endowment

In 2013, at the suggestion of Ruyintan "Ron" Mehta, we started the Dakshana Endowment. Dakshana's donors now have a choice. They can designate their contributions to be used immediately on our Dakshana Scholar program or it can go into the endowment. Funds in the endowment are slated to be invested in a highly concentrated manner. And at the end of every year, 5% of the endowment's value is spent towards the Dakshana Scholar program.

Ron seeded the endowment with a generous $50,000 contribution. The cost to support one scholar is approximately $2,500 and Ron figured that right off the bat, the endowment would be able to fully support at least one new scholar completely every year.

Table 5.   Dakshana's Endowment

2015 Dakshana Endowment Overview (in US$)	
Cash and Marketable Securities on 12/31/14:	**$ 401,364**
Contributions by Donors:	$ 213,388
Spending on Dakshana Scholar Program:	($ 41,880)
Investment Gain (Loss):	$ 72,376
Cash and Marketable Securities on 12/31/15:	**$ 645,248**

We also directed all the proceeds from the various auctions to the endowment. I am very pleased to report that we received over $200,000 in endowment funds in 2015. We estimated (and slightly overspent) our expected 5% and will fix that in 2016. The good news is that the endowment is off to a robust start and is already able to support at least fifteen scholars a year into perpetuity. I fully expect that the endowment will support a growing number of scholars every year. And donors now have the choice to designate their contributions to go either towards current scholar support or the endowment.

Ebay Lunch Auction

The winner of the lunch auction in 2015 was Josh Levy. His winning bid was a record-breaking $72,600. I had a terrific lunch in New York at Smith & Wollensky's with Josh and his sister, Becca. At the lunch, I suggested to Josh that he might want to visit some of the Dakshana locations in India to get answers to some of the questions he was posing. To my surprise, Josh committed to make this happen and I had a great time bouncing around India in July/August 2016 with Josh and his buddy Aaron "Zuck" Stackhouse. I get the feeling that Josh is likely to be a frequent visitor to various Dakshana locations in India.

We also decided to do an annual conference call auction. The difficulty with the lunch auction is that meals can only take place in limited geographies. The conference call format allows anyone from anywhere on the planet to bid and participate. The winning bid was made by last year's lunch winner, Ray Faltinsky, and he was once again joined by Team San Diego (Willy, Mike, Alex and Ron). This conference call added another $57,000 to the Endowment Account through their generous support.

In addition, we auctioned off an anonymously donated Warren Buffett/Berkshire Hathaway rug this past year which added another $900.

Our fifth annual lunch/conference call auctions will be held in November 2016 on Ebay. In the true spirit of market-driven auctions, the bidding will start at $0.01 for both, with no minimum. The lunch auction winner will get my not-so-old wallet as well. It is rumored that there may be a stock tip in there (again with no reps and warranties). As an aside, I do know that the 2011, 2012, 2013 and 2014 auction winners did act decisively on the little notes in the wallets they received. I suspect they will bid again. But folks, please don't make it easy for them. Your mission in life is to make the final winner truly pay up.

The guidelines remain the same. The winner can bring up to 7 folks with him/her. The lunch will take place anywhere in Southern California or New York, or in any of India's metro cities, or another mutually agreeable alternate location. Anything is fair game to discuss, except specific stocks. Of course, you can ask about the stock tip. And I'll personally pick up the tab.

The conference call auction is designed to level the playing field. Anyone can bid on Ebay. The call, which will be arranged at a mutually agreeable time, can have up to 7 participants. I will give a stock tip on the call (with no reps or warranties!) and will answer any questions related to that stock tip (or anything else the participants would like to discuss). The only topic off limits at both auctions is discussions on any current portfolio holdings (other than the stock tip).

The Charles T. Munger Hall

I feel like a broken record on the Charles T. Munger Hall. We originally proposed this to the government in 2010. It took more than 2 years, but we eventually received approvals at the end of 2012. It has been nearly 4 years since we signed the MoU with the government, but the buildings are finally nearing completion. The classrooms are ready now to host scholars. The dorms, dining room and labs (being built by the government) are receiving finishing touches. I am cautiously optimistic that Munger Hall will be inaugurated in Q4 2016. All of it looks amazing. Hats off to Colonel Sharma and the folks at NVS/ CPWD (Central Public Works Dept.) for doing an excellent job. It is a facility for the ages – and one that I hope, eventually, leads to the bending of the trajectory of the human race.

2016 JEE Results

It is always instructive to look at our detailed JEE results. Here is a summary of our 2016 JEE results for the 251 scholars we selected in 2014 (for the two-year program) and the 78 that we selected in 2015 (for the one-year program).

Two Scholars Did Not Appear for the JEE

The Team

We are very excited to have Commander Arun Mishra recently join us as Chief Administrative Officer. Commander Mishra has had an excellent career in the Indian Navy and he is a tremendous asset. Colonel Sharma, Commander Mishra and Sharmila Pai make an excellent team. They complement each other very well. We are blessed to have such committed and dedicated folks on our team.

Warmly,

Sept. 30, 2016   Mohnish Pabrai
