

Dear Friends:

Dakshana successfully completed its 11th full year of operations in 2017. Since inception in 2007, the IITs have accepted 1,726 Dakshana Scholars (out of a total universe of 3,012 Dakshana engineering stream scholars) – a success rate of 57%. Not too shabby – considering that the IITs accept under 2% of applicants. In 2018, out of 518 Dakshana Scholars who were prepared for the test, 293 made it – a success rate again of 57%. In addition, 29 scholars from the 2017 batch, who did not make it to IIT the first time, were accepted by the IITs in their 2nd attempt in 2018.

We added medical school prep in 2016 and it has been going spectacularly. Our first batch of scholars was 69 strong and done at Dakshana Valley. In 2017, 62 of these 69 scholars were accepted by one or more government medical colleges – a success rate of over 90%. One more from this batch got accepted to medical school on his 2nd attempt in 2018. Thus, overall, a total of 63 out of 69 kids from our maiden batch made it.

In 2018, we had a total of 198 Dakshana Scholars attempt the NEET medical entrance tests for the first time. Of this number, 142 were accepted by various medical schools, a success rate of 72%. We now have medical entrance coaching being delivered at three locations – Dakshana Valley, JNV Pune and JNV Silvassa. JNV Silvassa is our first all-girls batch of prospective doctors. You may enjoy watching this wonderful Q&A session I had with these bright young ladies a few months ago: <https://tinyurl.com/Silvassa>

The Son of an Impoverished Ragpicker accepted by AIIMS

The All India Institute of Medical Sciences (AIIMS) are India's most elite medical schools. It is far tougher to get into AIIMS than it is to get admitted to an IIT. This year over 800,000 students across India took various medical entrance exams. Less than 190,000 of them were brave enough to even attempt the AIIMS entrance tests. There are just 672 seats at seven AIIMS campuses across India. The admit rate is less than 1 in 278 or just 0.36%. Harvard, for example, admits about 5% of the 40,000 students who apply for undergraduate admission and the IITs have an admit rate of around 1%.

While Dakshana has so far had excellent results in getting our scholars accepted by various government medical colleges across India, we do have a few exceptionally talented scholars who join AIIMS every year as well. In 2017, we sent seven scholars to AIIMS and in 2018 we sent three more.

One of these three exceptional young minds is Asharam Choudhary, who we coached at our very first medical batch at JNV Pune. Asharam took the AIIMS entrance exams for the first time in 2018 – and was accepted by AIIMS Jodhpur. While that is remarkable in itself, what is truly mind-blowing is that Asharam's family is among the poorest of the poor. He grew up in a shanty hut partially made of twigs. His father picks recyclables for a living and the family somehow gets by on less than \$2/day. They have no electricity. Indoor plumbing or running water would be an unthinkable luxury.

Dakshana focuses on lifting impoverished families out of poverty – and we've done a great job at it since we started in 2007. However, when I've visited scholar homes in the past, sometimes it has been really hard to take in how close to the very bottom our scholars are from. Check out this video of Asharam and his family: <https://tinyurl.com/AsharamHome>

He grew up in a remote area of Madhya Pradesh with just one quack “doctor” serving the entire community. Asharam intends to practice medicine where he grew up to improve health outcomes dramatically. And for Asharam at least, the system worked perfectly. He is clearly ultra-bright. In 5th grade when he took the JNV entrance exams, he was correctly accepted by the JNVs. After that, in 10th grade, he took Dakshana’s first ever selection test for medical coaching. We had just 73 seats at Pune and tested thousands of super-bright kids across India. Asharam again made it through.

It is the Asharams of the world that energize all of us at Dakshana. And he is not the only one. Far from it. Every year there are scores of scholars Dakshana accepts that are not only very bright, but they grew up in mind-numbing poverty. I repeatedly tell team members at Dakshana that as we scale beyond the JNV system, Dakshana may need to spend nearly as much in finding these kids as we spend on grooming and coaching them. Millions of these impoverished families are off the grid. It is a very tough problem, but Colonel and his team are up to the challenge. We’re looking for “needles in haystacks.” And every time we find an Asharam, none is happier than me.

Scale-up Challenges in the JNV-Dakshana Public-Private Partnership

When Dakshana began operations in 2007, the Dakshana-JNV partnership was implemented at seven JNV campuses with total capacity for 560 scholars. Today we still operate out of seven JNV campuses and capacity has increased to about 780 scholars – an approximately 40% increase in eleven years. That equates to an annualized increase of just 3%, which is pathetic.

Dakshana has been eager to increase capacity dramatically at the various JNVs for quite a few years now. The Charles T. Munger Hall is a wonderful result of expanding our partnership with the Government of India to create a world-class “school within a school” with capacity for up to 360 scholars. However, it took seven years from the time we signed the MOU related to Munger Hall to the time the facility was commissioned. We need at least half a dozen more such facilities at six other JNV campuses. The next one is slated to be developed at JNV Pune. However, very little progress has been made so far. I would be surprised if the Pune facility is ready before 2021.

I love our partnership with the Government of India. It has been a tremendous win-win for everyone. The biggest winners have been the thousands of families whose fortunes we have dramatically changed for the better. However, I have also recognized that growing this beautiful partnership will be far slower than I would like. Recognition of this reality led us to creating our own campus at Dakshana Valley. It was a huge commitment when we agreed to purchase Dakshana Valley for \$10 million in 2014. We took a deep breath and said, “okay!” It has turned out to be one of the best decisions Dakshana has ever made.

Scale-up at Dakshana Valley Continues

We began operations in Dakshana Valley in 2015 with 78 scholars. That number grew to 139 in 2016, 239 in 2017 and 358 scholars in 2018. Two new hostels are currently under construction at Dakshana Valley. The Indira Foundation has provided significant funding for the Taraben J. Mehta Girls hostel with capacity for 210 girls – and we are grateful for their support. In 2019, we expect to accept over 600 scholars at Dakshana Valley. The average annual capacity at all seven of our JNV campuses is under 500 students a year. In just five years, Dakshana Valley will represent over 50% of Dakshana’s systemwide capacity. From

2019 onwards, we'll be preparing nearly 1,100 kids annually to take the IIT and medical entrance exams. Hats off to Colonel Sharma and his team for making this happen.

But, we are not done yet. The 109-acre Dakshana Valley can eventually accommodate several thousand scholars. By 2022, I am hopeful that Dakshana Valley alone will welcome 2,000 new scholars annually. Taking our capacity from 600 in 2019 to 2,000 in 2022 is a tall order. However, as you will see in the next section, we finally have all the financial resources we need to make it happen.

Growth of the JNV-Dakshana partnership is unlikely in the near future. I am excited that we were able to find another way to keep our growth engine going. It doesn't look like we'll make our 2,020 IIT seats goal in 2020. We lost too many years getting the Dakshana-JNV partnership to scale. However, we knew that was a huge stretch goal to take 2,020 IIT seats in 2020. It does look like we'll have over 1,000 kids take the IIT and medical entrance exams in 2020, which is amazing. It will only grow from there. We hope to make the 2,020 in 2020 a reality in the early 2020s. Stay tuned!

2017 Financial Overview

Table 1. Financial Overview

2017 Dakshana Financial Overview (in thousands of US\$)	
Cash and Marketable Securities on 12/31/16:	\$ 891
Scholar and Overhead Expenses:	(\$ 1,528)
Dakshana Valley Purchase:	(\$ 2,186)
Construction Expenses:	(\$ 268)
Contributions by Donors:	\$ 1,376
Contributions by Pabrai Family:	\$ 10,570
Donated Corporate Services:	\$ 5
Net Investment/Forex Gain (Loss):	\$ 1,179
Cash and Marketable Securities on 12/31/17:	\$ 10,034

We ended 2017 with cash and marketable securities exceeding \$10 million – an all-time record! The approximately \$10 million purchase price for Dakshana Valley has finally been paid off. The Valley is like an empty canvas. Until now, we were restricted on what kind of painting we could paint. We finally have the resources to exercise some creativity and truly make Dakshana Valley the Valley of Dreams.

During the dark days of March 2009, when I was forced to consider shuttering Dakshana, I couldn't imagine Dakshana would ever have our current prowess of incredible leadership, faculty, financial strength, and iconic assets like the Dakshana Valley owned free and clear. The team is singularly focused on making sure Dakshana only deepens all these strengths in the years ahead.

Direct Scholar Expenses

In 2017, we spent \$1,527,565 on the Dakshana Scholar Program and related corporate overhead. In addition, Abhay Bhagat donated IT and accounting services worth \$2,350, plus IIT Bombay donated materials worth \$2,500, bringing the real total to \$1,532,415. Of this amount, \$1,192,717 was spent directly on the Dakshana Scholar Coaching Program and \$339,698 comprised of our corporate overhead. Let's examine the scholar expenses in a bit of detail.

During 2017, we delivered the equivalent of 1045 scholar years of JEE & NEET coaching. Of this number, 189 scholar years were for the 1-year program and 856 scholar years for the 2-year program. The average cost to support a scholar across Dakshana's various programs is \$2283. For the 1-year program we have lower coaching expenses, but cover room and board at Dakshana Valley for the full year. For the 2-year program, the JNVs cover room and board, but the coaching goes on for 2-years. Both programs have similar overall cost/scholar.

Table 2. Dakshana Scholar Cost Data

Year	Cost/Scholar	Scholar Years
2007	\$3,650	176
2008	\$3,086	524
2009	\$2,100	356
2010	\$1,922	270
2011	\$2,475	219
2012	\$2,553	398
2013	\$2,450	576
2014	\$2,053	689
2015	\$2,516	676
2016	\$2,171	761
2017	\$2,283	1045

While we always face the headwinds of inflation, I am hoping our per scholar cost goes down a bit as we scale.

Corporate Overhead Expenses & Fully Loaded Cost/Scholar

Our corporate overhead in 2017 of \$334,848 made up about 19% of our outlays. This seems extraordinarily high relative to the spending on the scholars. It is high, but unlike many other foundations, the Dakshana Scholar program is a direct program run by Dakshana. Many of these so called "overhead expenses" are actually core to the program. For example, when our staff makes frequent trips to the various JNV campuses, they are classified as overhead, but they are 100% focused on ensuring program and scholar success.

We typically do not make grants to other non-profits. We run these very labor and management intensive programs ourselves. With staff and scholars spread across eight remote locations in India, the logistical overheads and costs are quite significant. It does involve considerable travel, infrastructure and staff to execute. Also, it is hard to cut overhead below a baseline. Nonetheless, as we scale up our scholar base, we do expect the overhead expenses to become smaller portions of the pie.

We have calculated that it costs us a loaded \$8,000/scholar to build the infrastructure at Dakshana Valley. If we amortize this over 20 years, it is \$400/scholar on a recurring basis.

Our fully loaded cost (including corporate overhead and construction) was about \$3,000/scholar in 2017. For the foreseeable future, a good rule of thumb for Dakshana is to assume direct scholar expenses in the \$2,000-\$2,500 range, overhead expenses in the \$250-\$500 range, and annual amortized construction cost/scholar in the \$300-500/scholar range, leading to a \$2,550-\$3,500 fully loaded cost per scholar.

The Cost to Produce an IITian or Medical Doctor

While the direct and overhead costs to support a scholar matter, it is the cost to produce an IITian that is the real benchmark that matters. It is the report card on how effective our spending and give-back endeavors truly are.

Table 3. Dakshana Scholar Cost Data

Year	Direct Avg. Cost/Scholar	Overheads; Infrastructure Cost/Scholar	Total Avg. Cost/Scholar	Percentage getting to IIT/Med*	Cost to get a scholar to IIT/Med**
2007	\$3,650	\$1,320	\$4,970	0%	NA
2008	\$3,085	\$828	\$3,913	34%	\$11,500
2009	\$2,100	\$382	\$2,482	38%	\$6,500
2010	\$1,922	\$232	\$2,154	58%	\$4,200
2011	\$4,337	\$580	\$4,917	77%	\$6,400
2012	\$2,553	\$367	\$2,920	52%	\$5,700
2013	\$2,450	\$339	\$2,789	75%	\$3,700
2014	\$2,053	\$490	\$2,503	54%	\$4,635
2015	\$2,516	\$422	\$2,938	71%	\$4,138
2016	\$2,171	\$478	\$2,649	85%	\$3,116
2017	\$2,283	\$720	\$3,003	65%	\$4,620
*next year					
**Med School Training began in 2016					
Infrastructure cost of \$400/scholar added from 2017					

Starting with 2017, Dakshana has changed its methodology on how we define acceptance by the IITs or medical schools to be more conservative. In the past, we used the government definition of a person having “qualified” in the JEE Advanced or NEET exams. The government always defines 30% or more as qualified to ensure that every seat is filled because not everyone offered an IIT seat accepts it.

However, not everyone who qualifies is actually offered an IIT or medical school seat. For example, per the government definition in 2018 our success rate in the IIT entrance exams is 68%. It took some work, but we estimate that 57% actually got offered a seat. On the medical side, it is more extreme. Per the government in 2018 over 99% of our scholars qualified. However, we estimate that 72% were actually offered a seat. Thus the above table shows our real combined IIT/Medical success rate of 65%. If we went with the government definition (as we did in past years), it would be 81%. To do a true apples to apples comparison versus past years, the success rate from 2007-2016 should be reduced by 10-20%.

It used to cost Dakshana over \$11,500 to get one scholar to IIT. This improved dramatically over the years – It is \$4,620 in 2017 for scholars qualifying for IIT or medical school. Further, most of the scholars that didn’t make it to IIT are heading to pretty respectable institutions like the NITs etc. The 2017 numbers are a meaningful increase from 2016 because we’ve begun to amortize our Dakshana Valley infrastructure costs. We’ve had plenty of infrastructure creation expenses over the years in the JNVs and Dakshana Valley. They were quite sporadic in the past, but it was likely a mistake to ignore them in the past. They won’t be ignored in the future.

Dakshana is far more efficient today than at anytime in our history. We have successfully insourced coaching at several locations. This has significantly reduced our cost and increased faculty time available to our scholars. Even when coaching institutes give us a great deal on outsourced coaching, the government imposes an 18% Goods and Services Tax (GST). It is thus a financial no-brainer to insource our faculty. However, managing our own faculty has always been quite challenging historically. Given Dakshana’s scale, excellent quality of life at Dakshana Valley and excellent cadre of scholars, we’re hoping recruiting, retaining and managing our faculty becomes easier. Many of them are our own alums.

Dakshana’s Financial Health

From the outset, Harina and I committed to give 2% of our net worth to Dakshana every year as long as our net worth exceeds \$50 million at the end of any given year. We ended 2017 well about that threshold and decided to add a few more giving percentages based on year-end net worth. We decided to make it 3% over \$100 million, 4% over \$150 million and 5% for everything over \$200 million for now. 2017 was a great year for us from a net worth gain perspective. Based on this expanded formula, the annual amounts we’re expected to give and actually gave are as follows:

Table 4. Mohnish Pabrai and Harina Kapoor - 2% of Net Worth vs. Actual Giving

	Expected To Give	Actual Giving	Difference
2006	\$ 1,067,983	\$ 577,420	\$ (490,563)
2007	\$ 1,302,924	\$ 3,355,350	\$ 2,052,426
2008	\$ -	\$ 106,491	\$ 106,491
2009	\$ -	\$ 69,450	\$ 69,450
2010	\$ 1,168,983	\$ 345,064	\$ (823,919)
2011	\$ -	\$ 1,044,480	\$ 1,044,480
2012	\$ 1,084,215	\$ 200	\$ (1,084,015)
2013	\$ 1,511,701	\$ 820,710	\$ (690,991)
2014	\$ 1,526,951	\$ 3,404,487	\$ 1,877,536
2015	\$ 1,244,044	\$ 486,660	\$ (757,384)
2016	\$ 1,293,438	\$ 1,190,240	\$ (103,193)
2017	\$ 6,444,191	\$ 10,569,682	\$ 4,125,491
Total	<u>\$ 16,664,431</u>	<u>\$ 21,970,234</u>	
Excess Given:		\$ 5,325,803	

Harina and I are thrilled that our 2017 giving to Dakshana is nearly equal to all contributions we made in aggregate in the previous decade. It has helped put Dakshana on very solid financial footing – which is important given the large number of young lives and families counting on us.

Dakshana's Wonderful Family of Donors

We had over \$1.37 million in donations from our generous donors, with the Watsa family contributing over \$1 million. Every dollar matters and we are very grateful to our wonderful group of patrons.

Here is a list of our 2017 donors:

2017 Dakshana Donations Received (in USD)

I am pleased to report that these gifted funds were used to buy books, improve scholar nutrition, create/improve classroom and dorm infrastructure, pay for coaching services for our scholars and, most importantly, fund a part of the Dakshana Valley purchase. Harina and I are grateful to our patrons for their generosity and wisdom.

And now, it's time for a short commercial break. You can make a gift to Dakshana here: <https://dakshana.org/donate/>.

We accept all major credit cards and Paypal. You can also send us a check (in US dollars, Canadian dollars or Indian rupees). And your gift is fully tax deductible. We can also set up automatic recurring monthly charges to your credit card. \$99 or C\$130 a month for 24 months fully supports one scholar. You can even pick the scholar you'd like to support and we can arrange for interaction and meetings.

Donate your Beater Car. We'll even pick it up!

Through our partnership with Action Donation Services (www.actiondonation.org), Dakshana can accept donations of cars, boats, RVs, and other property donations anywhere in the United States. It is simple. You get a tax deduction. ADS picks up the vehicle (even if does not start!). Please call Action Donation Services at +1.866.244.8464, or us at +1.949.453.0609, or email Lynn Dann (ldann@dakshana.org) for more information.

The donated item will be picked up from a location of your choice at a time of your choosing at no cost to you. You will receive the maximum legal tax deductions and possibly a partial cash payment. This is a great way to get rid of that beater car and help a great cause!

Ebay Lunch Auction

The winner of the lunch auction in 2017 was, once again, Ray Faltinsky & Friends. Here is what folks have paid for lunch with yours truly over the years:

Table 6. Ebay Lunch Results – 2010 to Present

<u>Year</u>	<u>Winning Bid</u>	<u>Actual Proceeds</u>	<u>Winner</u>
2017	\$ 29,100	\$ 30,500	Ray Faltinsky & Friends
2016	\$ 14,100	\$ 21,600	Josh Levy
2015	\$ 72,600	\$ 72,600	Josh Levy
2014	\$ 36,200	\$ 127,000	Ray Faltinsky & Friends, Brandon Cohen
2013	\$ 17,000	\$ 25,000	Narendra Mulani
2012	\$ 25,000	\$ 55,000	Ray Faltinsky & Friends, Narendra Mulani
2011	\$ 20,300	\$ 65,100	Narendra Mulani, Ray Faltinsky & Friends
2010	\$ 10,000	\$ 26,000	Ray Faltinsky
Total	\$ 224,300	\$ 422,800	

Our eighth annual lunch/conference call auctions will be held in November 2018 on Ebay. In the true spirit of market-driven auctions, the bidding will start at \$0.01 for both, with no minimum. The lunch auction winner will get my not-so-old wallet as well. It is rumored that there may be a stock tip in there (again with no reps and warranties).

The guidelines remain the same. The winner can bring up to seven folks with him or her. The lunch will take place anywhere in Southern California or New York, or in any of India's metro cities, or another mutually agreeable alternate location. Anything is fair game to discuss, except specific stocks. Of course, you can ask about the stock tip. And I'll personally pick up the tab.

A few years back we started auctioning off an annual conference call with me with all proceeds going to Dakshana. The difficulty with the lunch auction is that meals can only take place in limited geographies. The conference call format allows anyone from anywhere on the planet to bid and participate.

Table 7. Ebay Conference Call Results – 2013 to Present

<u>Year</u>	<u>Winning Bid</u>	<u>Actual Proceeds</u>	<u>Winner</u>
2017	\$ 3,500	\$ 3,500	Cesar Hernandez
2016	\$ 9,100	\$ 14,100	Anonymous
2015	\$ 35,100	\$ 57,000	Ray Faltinsky & Team San Diego
2014	\$ 12,800	\$ 15,000	Anonymous
2013	\$ 50,000	\$ 86,250	Ray Faltinsky & Team San Diego
Total	\$ 128,900	\$ 172,350	

The conference call auction is designed to level the playing field. Anyone can bid on Ebay. The call, which will be arranged at a mutually agreeable time, can have up to seven participants. I will give a stock tip on the call (with no reps or warranties!) and will answer any questions related to that stock tip (or anything else the participants would like to discuss). The only topic off limits at both auctions is discussions on any current portfolio holdings (other than the stock tip).

The Dakshana Endowment Crosses \$1 Million!

In 2013, at the suggestion of Advisory Board member Ruyintan “Ron” Mehta, we started the Dakshana Endowment. Dakshana’s donors now have a choice. They can designate their contributions to be used immediately on our Dakshana Scholar program or it can go into the endowment. Funds in the endowment are invested in a highly concentrated manner and managed by yours truly. And at the end of every year, 5% of the endowment’s value is spent towards the Dakshana Scholar program.

Ron seeded the endowment with a generous \$50,000 contribution. The cost to support one scholar in 2013 was \$2,500 and Ron figured that right off the bat, the endowment would be able to fully support at least one new scholar completely every year. Ron will be happy to note that in just five short years the annual giving from the endowment now exceeds the initial seed contribution!

Table 8. Dakshana's Endowment

2017 Dakshana Endowment Overview	
Cash and Marketable Securities on 12/31/16:	\$ 693,530
Contributions by Donors:	\$ 31,355
Spending on Dakshana Scholar Program:	(\$ 52,000)
Investment Gain (Loss):	\$ 330,623
Cash and Marketable Securities on 12/31/17:	\$ 1,003,508

We also directed all the proceeds from the various auctions to the endowment. I am very pleased to report that the lunch and conference calls led to over \$400,000 being added to the endowment account over the last eight years. We estimated (and slightly overspent) our expected 5% in 2017 and will fix that in 2018. The good news is that the endowment is off to a robust start and is already able to support at least seventeen scholars a year *into perpetuity*. I fully expect that the endowment will support a growing number of scholars every year.

Table 9. Endowment Scholars Fully Supported

<u>Year</u>	<u>Endowment Scholar Support</u>	<u>Number of Scholars Fully Supported</u>
2013	\$ 8,450	3
2014	\$ 13,002	6
2015	\$ 41,880	17
2016	\$ 38,800	19
2017	\$ 52,000	20
Total	\$ 154,132	65

As a Dakshana supporter, you can elect whether your contributions go into our endowment or are to be spent soon after we receive the same. Only funds explicitly specified as for the endowment go in there.

Nagashree Aithal

On September 11, 2018, Dakshana alum Ms. Nagashree Aithal committed suicide. She was a 1st year Mechanical Engineering student at IIT Guwahati. From all outward appearances, she was a pleasant, happy and driven student. Nagashree was from JNV Shimoga in Karnataka. Over the years, we have had four scholars from JNV Shimoga and Nagashree was the first and only girl from that JNV. She was the pride and joy of her school and a tremendous role model for the younger students – especially the girls. She did very well academically – as is evidenced by her getting a highly coveted IIT Guwahati seat.

I am not 100% sure about this, but I read that she left a note that said, “Engineering sucks. I am sorry I could not meet the high expectations of my parents.” I heard that she wanted to be a teacher, not an engineer. Dakshana’s IIT entrance test prep program is very intense and demanding. We are preparing students for the toughest exam on the planet. It is not easy to be accepted as a Dakshana Scholar. However, it is a volunteer program. Students get to choose us after we accept them. And if they change their mind after they start with us, we counsel them and have removed many scholars from the program per their wishes.

The realities, however, are that it is very prestigious to be accepted by Dakshana and the IITs. Our students come from impoverished families. The students and families clearly recognize that once a student is accepted by Dakshana, the odds are very high that the family’s financial well-being is likely to be radically improved. So, in many cases, passions and preferences of the student are set aside by both the student and the parents. It is a sad situation. In most cases, the scholars do not even express their preferences to us. And we get cases like Nagashree who clearly had the horsepower and put in the incredible effort required to be accepted by the IITs – and show no external signs of anguish.

Dozens of suicides among the hundreds of thousands of students across India who aspire to join IIT happen every year. And suicides among IIT students happen nearly every year at virtually every IIT. The reason I added this section is that I want all the current and future Dakshana scholars and alums to learn from this tragedy. Life circumstances change. More quickly than we think. If you are depressed, seek out close friends and loved ones. Share your anguish. It can only help.

Nagashree could have left IIT, dropped a year and joined another college with a major more to her liking. Or she could have maximized her interests at IIT Guwahati through electives and extracurricular clubs, activities and internships. And she could have been a great teacher. Any school in India would welcome having an IIT grad as a teacher. She needed support from everyone around her. Parents, please listen to your wonderful kids. Encourage them to pursue their passions. Team Dakshana needs to be ever vigilant. Please escalate and help support the scholars when you sense a problem.

A Dakshana of the Scholars

The first batch of our scholars entered the workforce in 2013 and their ranks have been growing ever since. This army of alums is an invaluable Dakshana asset. We have an incredibly dedicated and talented team with an ever-growing number of alums in the mix. They have come on board as faculty, management, and even Civil Engineers to oversee the buildout of Dakshana Valley. In the not too distant future it will be a Dakshana of the scholars, for the scholars, and by the scholars.

Colonel Sharma, Sharmila and Commander Mishra continue to hit the ball way out of the park. They are fully up to the challenge of the very significant scholar base growth in the years ahead. It is a joy to watch them from the sidelines and cheer them on.

Warmly,

A handwritten signature in black ink, appearing to read 'Mohnish Pabrai', with a long horizontal flourish extending to the right.

October 16, 2018
