# Annual Report 2013

## The Dakshana Foundation

Dear Friends:

Dakshana successfully completed its 7<sup>th</sup> full year of operations in 2013. Since inception in 2007, the IITs have accepted 631 Dakshana Scholars (out of a total universe of 1288 Dakshana Scholars) – a success rate of 49%. Not too shabby – considering that the IITs accept under 2% of applicants. In 2014, out of 259 Dakshana Scholars who took the IIT entrance test, 167 made it – a success rate of 64.4%. In addition, twenty scholars who attempted the IIT entrance test for a second time in 2014 were successful.

Dakshana's entire model was lifted and scaled from Anand Kumar's Super 30 program. I am super excited about the expanding collaboration and connections between Super 30 and Dakshana. In 2013, fully 1/3 of the Super 30 were 2nd attempters from Dakshana. And most of them were accepted by the IITs. This year (2014) 1/6th of the Super 30 is from Dakshana. In addition, there are another 23 2nd attempt Dakshana Scholars that are being prepped by Anand's Ramanujan School of Mathematics with a joint subsidy from Anand and Dakshana. Dakshana has brought seven of our alums on board as JEE faculty. And as I write this, they are in Patna being trained by Anand. Next year, they'll handle a few batches on their own.

Every summer, I try to visit a few Dakshana Scholars and their families in their homes. These scholar home visit days are some of the best days of the year for me. I'd rather visit scholar homes than lie on a beach or take a vacation. This year my daughter Momachi and I chose to visit a few scholars in rural West Bengal. One of these scholars was Niranjana Biswas, who was with us at JNV Kottayam in Kerala from 2011-13. He retook the IIT entrance exam in 2014, did not make it, but did well enough to be eligible to join NIT Calicut, which is a wonderful institution.

Niranjana lives in the village of Satyanandapur in Bardhaman district. The village is less than 5 miles from one of India's finest highways, NH-2, which connects Kolkata to New Delhi. Once we left the highway however, there were no paved roads. It was just an endless narrow dirt path. We had a wonderful time meeting with Niranjana's family and neighbors. The entire village is a Scheduled Caste village. Most were landless or had tiny patches of land under cultivation. Somehow they manage to survive. What stunned me was that no one in the village, except Niranjana and one elderly gentleman, spoke anything but Bengali. The elderly neighbor spoke some Hindi as he had lived in Uttar Pradesh for a few years.

No one in the village, except Niranjana had studied past 9<sup>th</sup> grade. And Niranjana is the only person from his village to ever crack the JNV entrance test and attend the JNV in his district. Needless to say, Niranjana is now fluent in English, Hindi and Bengali. Bengali-only speakers have very limited job prospects and are pretty much disconnected from the global economy. It is disheartening to note that while Satyanandapur is so well connected to the bustling metropolis of Kolkata, it might as well be a million miles away. Tata Consultancy Services (TCS), which hires thousands of software developers every year for its large Kolkata center, has never ever hired a person from Satyanandapur – and likely never will for at least a decade or longer.

The single silver bullet the West Bengal state government could elect to fire is to simply make sure its schools graduate students with proficiency in English and Bengali. The incremental cost of this change would be a rounding error for the state. However, it would increase the sub-\$100/month typical household income of Satyanandapur by hundreds of percent. If there ever were a no-brainer ...

As I have noted earlier, these trips repeatedly highlight for me the very small drop that Dakshana is in this vast ocean of poverty. Every year the JNV in Bardhaman district, which Niranjana attended, does not simply admit the best 80 kids who apply. There are quotas for the Scheduled Castes, Scheduled Tribes, for girls and for the disabled. But it does not end there. The government makes sure that selected students come from every community development block within the district. For example, Bardhaman district, which has an area of 2700 square miles and a population of 8 million is divided into 31 community development blocks. There is at least one student admitted from each of these 31 community development blocks every year to JNV Bardhaman. And since Dakshana makes selections from across the entire JNV system, we get pretty darn close to selecting a talent pool that represents the best of the best from across 600,000 villages in India. It is heartening to note that the JNV system and Dakshana do seem to mostly get to the right drops. It is what makes Dakshana's model so exceptional. It's almost magical.

I felt good and I felt bad after the visit to Satyanandapur. It reminds me of the the vastness of the task at hand and these beautiful words by one of my favorite poets:

*The woods are lovely, dark, and deep,  
But I have promises to keep,  
And miles to go before I sleep,  
And miles to go before I sleep.*

- Robert Frost

## 2013 Financial Overview

**Table 1. Financial Overview**

<b>2013 Dakshana Financial Overview</b> (in thousands of US\$)	
Cash and Marketable Securities on 12/31/12:	<b>\$2,614</b>
Scholar and Overhead Expenses:	(\$813)
Contributions by Donors:	\$1,230
Contributions by Pabrai Family:	\$821
Donated Coaching Services:	\$84
Donated Corporate Services:	\$3
Net Investment/Forex Gain (Loss):	\$772
Cash and Marketable Securities on 12/31/13:	<b>\$4,624</b>

The diligent reader of these reports will note that, at over \$4.6 million, our cash balances are at an all time high. It is a far cry from the dark days of 2009, when we ended the year with just \$36,000 in cash.

### **Drowning in Dollars**

In 2007, when Dakshana got going, we accepted 291 Dakshana Scholars. And in 2014, seven years since inception, we accepted just 252 scholars. There has been virtually no growth! In all fairness, we did have to severely curtail the program in 2009 due to the financial crisis – and then rebuild. In the cash-strapped days of 2009, Dakshana accepted just 50 scholars. This grew to 110 in 2010, 206 in 2011, 259 in 2012 and an all-time high of 433 scholars accepted in 2013.

The JNV system was never designed to accommodate a program like Dakshana. We are a bandage on top of an existing system. There is very little available in terms of unused dorm beds or classrooms in the JNVs. It has been a major challenge to even get the 685 beds presently allocated to us. In fact, in locations like Kottayam (Kerala), Pune (Maharashtra) and Lucknow (Uttar Pradesh), Dakshana has had to build classrooms from scratch to create capacity. We do have the Charles T. Munger Hall and associated dorms under construction at Bengaluru – and that will increase our capacity from 685 to 925 scholars being coached at any one time, but it does not solve our drowning in dollars problem.

We spend approximately \$1500 per scholar per year. With 685 scholars, we are spending about \$1 million a year. And even when that number rises to 925, our spending rises to just \$1.4 million/year. In 2013, donor contributions exceeded \$2.3 million. Our inflows are exceeding our outflows by well over a million a year.

Further, as some of these donor funds get invested in a highly concentrated manner, we tend to generate exceptional investment gains as well. In 2013, our investment gains were over three quarters of a million dollars. We earned almost as much in investment gains in 2013 as our present annual outlays! While most charities and foundations would be delighted by the aforementioned statistics, I am not. We are drowning in dollars and I'd rather have those dollars be used today to lift more families from poverty than expand our coffers. Thankfully, we found a great way to empty our coffers recently.

### **Dakshana buys Ananda Valley for \$10 Million**

*Someone is sitting in the shade today  
because someone else planted a tree long ago.*

- Warren E. Buffett

Dakshana has just made our largest bet ever. We've recently agreed to buy a 108 acre failed resort in Pune District for \$10 million. Approximately 20 acres of this property comprises of the present resort infrastructure of over 100 guest rooms, and extensive banquet, kitchen and dining facilities. We need to repurpose a few structures for our classrooms and hope to be up and running to welcome Ananda Valley's first batch of 300-400 scholars in 2015. Check it out at [www.anandavalley.com](http://www.anandavalley.com). It is an

amazing property comprising of two valleys, five seasonal lakes, and over 40 acres of drip irrigated mango and chickoo orchards – simply an incredible backdrop for cranking out thousands of engineers to serve India and the world. When fully built-out, Ananda Valley will accommodate over 2000 scholars.

Since we will be coaching scholars at Ananda Valley after they finish high school and they will be with us for just one year, it gets us a long ways towards the goal of having 3000 Dakshana Scholars take the IIT entrance exam every year. Dakshana's growth will no longer be restricted based on how fast our partner, the Government of India, decides to move. Instead of having all our eggs in one basket, we will now have an independent 2<sup>nd</sup> basket. This 2<sup>nd</sup> basket is a fully open system. We are no longer restricted to accepting scholars from within the JNV system. They can come to us from any of the tens of thousands of government run high schools across India.

We intend to add capacity at Ananda Valley in incremental steps of 600 scholars at a time. Capacity addition will mean a one time expense of \$6000/bed. To go from 400 to 2000 scholars will cost us an additional \$10 million. Thus eventually our total capex in the valley will be around \$20 million, resulting in 2000 beds, which will have cost us approximately \$10,000/bed. Even if this entire amount is amortized over 10 years (\$1000/scholar), we believe we'll still be able to prep a kid for the IIT entrance exam at an all-in cost of about \$2500 or less – similar to our present JNV-based cost structure.

And after the 10-year amortization, we'll still own the land and associated infrastructure with muted annual maintenance capex. The new proposed Pune International Airport is less the three miles from the property. Even though we aren't focused on property appreciation etc., Dakshana is likely to end up with an incredibly valuable asset that will offer interesting optionality to its future leaders in the decades ahead.

If there weren't a Warren Buffett, there certainly would not have been a Dakshana Foundation. I cannot overstate Warren's impact on Dakshana. And the Ananda Valley purchase came together rather quickly because a number of Warren Buffett and Charlie Munger principles on investing, life and philanthropy created a loolapalooza effect for Dakshana. I'd like to spend some ink going over some of these:

*You can't make a good deal with a bad person.*

- Warren E. Buffett

The sellers of Ananda Valley, the Kataria family, are simply fantastic. I'd rate Dr. Kataria as one of top twenty highest quality humans I have ever met in my life in India. We insisted that he retain his primary residence on the property because we'd very much like him around. The persona of Dr. Kataria was a hugely important factor in this deal happening.

*You have to be like a man standing with a spear next to a stream. Most of the time he's doing nothing. When a fat juicy salmon swims by, the man spears it. Then he goes back to doing nothing. It may be six months before the next salmon goes by.*

- Charlie Munger

Land purchases in India are very convoluted and complex. If we bought raw land, it would have easily taken us 3-4 years to get all the re-zoning and construction done. And since Dakshana is unwilling to pay even a single rupee as a bribe – and every facet of land purchase and subsequent permissions to build is rife with deeply entrenched corrupt officials - we would have had a very hard time. The Katarias' put fifteen years of substantial efforts to develop the property and build the resort. It did not work out economically as a resort, but it is ideal for Dakshana. Ananda Valley is a super high quality asset in a very desirable location in India with room for us to grow and expand. Finally, unlike virtually every other property deal in India, Dakshana is paying 100% of the purchase price via wire transfer. There is no “black money” involved. Taking a cue from Charlie, I moved as fast I could to close the deal.

*Philanthropy is harder than business. You are tackling important problems that people with intellect and money have tried in the past and had a tough time solving.*

- Warren Buffett

*You can bat a thousand in this game if you want to do nothing important. Or you'll bat something less than that if you take on the really tough problems.*

- Warren Buffett

Many readers of this report are connoisseurs of cricket, rather than baseball. Batting a thousand, in baseball, means getting to first base each time one steps up to bat. The very best of the best baseball players end up with a sub-400 batting average. That is, they get a successful hit well under 40% of the time. One has to take big risks in philanthropy if one wants a shot at truly changing the world. This \$10 million purchase of Ananda Valley is set up as \$5 million down and the remaining owner financed and payable within 2 years. It will absorb most of our current cash as well as much of our future inflows in 2015 and 2016.

Dakshana has the comfort of having fairly predictable contributions from our patrons. The Pabrai and Watsa families will likely be giving around \$5 million or more in 2014 and 2015. We believe we can handle the purchase and meet all our other obligations.

But, what if it does not work? There are plenty of risk factors. The property needs to be re-zoned. We have not done large scale coaching outside JNV campuses in the past. Our prior experience with 67 scholars in Faridabad in 2008-09 did not go well. There may be a plethora of problems and issues if we make it a co-ed campus. There are significant liability issues we take on when we host hundreds of 18-year-olds for a year. So, there are many ways in which we can fail. And we are ready to fail. If Dakshana lost the entire \$10 million, it would hurt us. But we would survive and continue. And we'd continue to be willing to make large, risky bets.

But what if it does work? What if, in a few years, Ananda Valley has 2000 impoverished kids attempt to get admitted to the IITs every year? What if, on average, even 1000-1500 of them make it every year? None is happier than me at the prospect of lifting tens of thousands of families permanently from the crutches of poverty. It reminds me of these beautiful words by my favorite urdu poet, Asadullah Khan Ghalib. This time there is no need for me to twist his words. They are perfect. ☺

*qataré méiñ dajlā dikhāī na dé aur juṛv méiñ kul  
khél laṛkoñ kā huā, dīda-é-bīnā na huā*

Translation:

If in a drop of water, one cannot see the river,  
nor see the full in the smallest part  
Then of what use is this eye?  
It's but a toy for a child to play.  
For only that eye is the real eye,  
which can see the whole in a part.  
Or the river in a drop.

- Mirza Ghalib

If Ananda Valley works, it would mean that in the not too distant future more than one in ten IITians will be from Dakshana. Over a few decades, it is almost a given that we will have had a hand in producing some of the most amazing engineers, scientists, entrepreneurs, professors and leaders the world has ever seen. There is a chance we'd, ever so slightly, change the future trajectory of humanity. That is the prize. And we're making this bet and taking these risks for a shot at that prize. This tiny drop is actually a river.

## Direct Scholar Expenses

In 2013, we spent \$813,000 on the Dakshana Scholar Program and related corporate overhead. In addition, T.I.M.E donated about \$84,000 in JEE coaching services. Also, Seneca Global and Abhay Bhagat donated IT and accounting services worth \$3,000, bringing the real total to \$900,000. Of this amount, \$705,000 was spent directly on the Dakshana Scholar JEE Coaching Program and \$195,000 comprised of our corporate overhead. Let's examine the scholar expenses in a bit of detail.

During 2013, we delivered the equivalent of 576 scholar years of coaching at an average cost of \$1,225/year or \$2,450/scholar.

**Table 2. Dakshana Scholar Cost Data**

<b>Year</b>	<b>Cost/Scholar</b>	<b>Scholar Years</b>
2007	\$3,650	176
2008	\$3,086	524
2009	\$2,100	356
2010	\$1,922	270
2011	\$4,337*	219
2012	\$2,553	398
2013	\$2,450	576

\*\$2,475 without construction

## Corporate Overhead Expenses

Our corporate overheads in 2013 of \$195,000 made up about 22% of our outlays. This seems extraordinarily high relative to the spending on the scholars. It is high, but unlike many other foundations, the Dakshana Scholar program is a direct program run by Dakshana. Many of these so called “overhead expenses” are actually core to the program. For example, when our staff makes frequent trips to the various JNV campuses, they are classified as overhead, but they are 100% focused on ensuring program and scholar success.

We typically do not make grants to other non-profits. We run these very labor and management intensive programs ourselves. With staff and scholars spread across six remote locations in India, the logistical overheads and costs are quite significant. It does involve considerable travel, infrastructure and staff to execute. Also, it is hard to cut overheads below a baseline. Nonetheless, as we scale up our scholar base, we do expect the overhead expenses to become smaller portions of the pie.

This corporate overhead averaged out to \$339/scholar in 2013. It was \$367/scholar in 2012. The drop in corporate overhead/scholar is, in part, due to amortization over a larger number of scholars. As we scale up, the overhead/scholar will drop.

Our fully loaded cost (including corporate overhead and construction) was \$2,789/scholar in 2013. This compares favorably with \$2,920 in 2012. For the foreseeable future, a good rule of thumb for Dakshana is to assume direct scholar expenses in the \$2000-2500 range and overhead expenses in the \$250 to \$500 range, leading to a \$2250 to \$3000 fully loaded cost per scholar.

### **The Cost to Produce an IITian**

While the direct and overhead costs to support a scholar matter, it is the cost to produce an IITian that is the real benchmark that matters. It is the report card on how effective our spending and give back endeavors truly are.

**Table 3. Dakshana Scholar Cost Data**

<b>Year</b>	<b>Direct Avg. Cost/Scholar</b>	<b>Corp. Overhead Cost/Scholar</b>	<b>Total Avg. Cost/Scholar</b>	<b>Percentage getting to IIT*</b>	<b>Cost to get a scholar to IIT</b>
<b>2007</b>	\$3,650	\$1,320	\$4,970	0%	<b>NA</b>
<b>2008</b>	\$3,085	\$828	\$3,913	34%	<b>\$11,500</b>
<b>2009</b>	\$2,100	\$382	\$2,482	38%	<b>\$6,500</b>
<b>2010</b>	\$1,922	\$232	\$2,154	58%	<b>\$4,200</b>
<b>2011</b>	\$4,337	\$580	\$4,917	77%	<b>\$6,400</b>
<b>2012</b>	\$2,553	\$367	\$2,920	52%	<b>\$5,700</b>
<b>2013</b>	\$2,450	\$339	\$2,789	64%	<b>\$5,900</b>
*next year					

It used to cost Dakshana over \$11,500 at the outset to get one scholar to IIT. This improved dramatically over the years – all the way down to \$4,200 in 2010. I fully expect this all-in cost number to settle down at under \$5,000 as we scale up.

## Dakshana's Financial Health

From the outset, Harina and I have committed to give 2% of our net worth to Dakshana every year as long as our net worth exceeds \$50 million at the end of any given year. Based on this formula, the amounts expected to give and actually given are as follows:

**Table 4. Mohnish Pabrai and Harina Kapoor - 2% of Net Worth vs. Actual Giving**

	<b>Expected To Give</b>	<b>Actual Giving</b>	<b>Difference</b>
<b>2006</b>	\$ 1,067,983	\$ 577,420	\$ (490,563)
<b>2007</b>	\$ 1,302,924	\$ 3,355,350	\$ 2,052,426
<b>2008</b>	\$ -	\$ 106,491	\$ 106,491
<b>2009</b>	\$ -	\$ 69,450	\$ 69,450
<b>2010</b>	\$ 1,168,983	\$ 345,064	\$ (823,919)
<b>2011</b>	\$ -	\$ 1,044,480	\$ 1,044,480
<b>2012</b>	\$ 1,084,215	\$ 200	\$ (1,084,015)
<b>2013</b>	\$ 1,511,701	\$ 820,710	\$ (690,991)
<b>Total</b>	<u>\$ 6,135,806</u>	<u>\$ 6,319,165</u>	<u>\$ 183,359</u>
	<b>Excess Given:</b>	<b>\$ 183,359</b>	

The “credit balance” we’ve been running with Dakshana is now de minimus. With Pabrai Family giving now exceeding \$1.5 million and the Watsa family at \$1 million, Dakshana is likely to have inflows approaching \$3 million in 2014 and beyond. With our soon to be emptied coffers, we need it!

## Dakshana's Wonderful Family of Donors

We had over \$1.3 million in donations from our generous donors, with the Watsa family contributing C\$1 million.

Here is a list of our 2013 donors:

2013 Dakshana Donations Received				
Donor Name	City	State	Country	Amount
Watsa Family	Toronto		Canada	\$ 948,127
T.I.M.E.	Hyderabad		India	\$ 84,463
Faltinsky Family Foundation	Rancho Santa Fe	CA	USA	\$ 50,950
Ron Mehta	Warren	NJ	USA	\$ 50,000
Acacia Conservation Funds	New York	NY	USA	\$ 25,000
Narendra Mulani	New Canaan	CT	USA	\$ 25,000
Del Corazon	San Diego	CA	USA	\$ 17,000

I am pleased to report that these gifted funds were used to buy books, improve scholar nutrition, create/improve classroom and dorm infrastructure, pay for coaching services for our scholars and even fund a part of the Ananda Valley purchase. Harina and I are grateful to our patrons for their generosity and wisdom.

And now, it's time for a short commercial break. If you would like to make a gift to Dakshana, please click on this link:

<http://www.dakshana.org/donate/donate.asp>

We accept all major credit cards and Paypal. You can also send us a check (in US dollars or Canadian dollars or rupees). And your gift is fully tax deductible. We can also set up automatic recurring monthly charges to your credit card. \$99 a month for 24 months fully supports one scholar. You can even pick the scholar you'd like to support and we can arrange for interaction and meetings.

I think of these annual reports as chapters of an unfinished book. It is best to start with the first chapter – 2007's annual report. You can view it at [www.dakshana.org/AR07.pdf](http://www.dakshana.org/AR07.pdf). Electronic PDF copies of all the annual reports are available at [www.dakshana.org/ARep.asp](http://www.dakshana.org/ARep.asp). Alternatively, you can email me at [mpabrai@dakshana.org](mailto:mpabrai@dakshana.org) and I'll mail you a hardcopy. For brevity, I'll assume that the reader has already read the earlier annual reports and perused our website.

In these annual reports, I have taken an atypical approach of not including detailed financials. This has been done for readability and saving a tree or two. US foundations are required to file Form 990-PF with the IRS every year and the IRS makes these filings public. We provide a link to these public filings on our website ([www.dakshana.org/about\\_us/financials.asp](http://www.dakshana.org/about_us/financials.asp)). The Form 990-PF is filed in May of each year for the preceding year and it provides all the detailed financials.

## **Investment Gains**

Unless donor funds are specifically designated by the giver to go into the Dakshana endowment or given as part of our various auctions, they are kept in cash/money market and are spent throughout the year on various direct scholar expenses. They do not get invested in equities etc. We ended 2013 with about \$1.9 million of such donor funds in cash/money market. Contributions to Dakshana's endowment usually get invested in equities and about 5% of the endowment account value at year end is spent on scholar expenses.

Funds given by the Pabrai Family, Dakshana's endowment or donated as part of the auctions are usually invested in public equities. We ended 2013 with about \$2.8 million invested in a few public equities. Our realized and unrealized gains in 2013 were about \$743,000. It is a wonderful result considering that nearly \$1 million of that \$2.8 million year-end balance was received by Dakshana in the last few weeks of 2013.

## **All Eggs in One Basket**

Both Warren and Charlie believe that giving money away effectively is far more difficult than making it. Thus, just as in investing, to put the odds of effective giving in one's favor, charitable foundations must concentrate their efforts into a few narrowly defined causes with the highest social return on invested capital (ROI).

Dakshana follows this approach to our giving in spades. We have singularly focused all of our efforts on just one cause. The best that I can tell is that we will likely “max out” on this cause of getting impoverished kids into IIT at a spending level that is unlikely to exceed \$5 million a year. Our present inflows are under \$3 million/year. The good news is that our inflows line up pretty well with the problem we are trying to address. Once our inflows exceed \$5 million/year, we will need to identify at least one more cause.

## **Investment Practices at Dakshana**

Dakshana's atypical investment approach has been greatly influenced by the views of Warren Buffett and Charlie Munger on the subject. The funds available for equity investing are likely to be invested in a heavily concentrated manner. We could even end up having 100% of it in a single stock. Because Dakshana has the stability of future inflows, we can handle the volatility and even a complete loss isn't gonna put us out of business. Again the goal is to end up with above market returns so we can maximize the good we can do. As an aside, for the foreseeable future, until we've paid off Ananda Valley, our escapades related to equity investing are going to be quite muted.

## **Dakshana Canada is Born**

In 2013, we created a new entity, Dakshana Canada. The primary driver was to allow all our Canadian supporters to be able to contribute to us and get a tax deduction on their Canadian tax return. I am delighted that we have three excellent Canadians as members of Dakshana Canada's board. They are Francis Chou from Toronto, Tim McElvaine from Vancouver and Sanjeev Parsad, also from Vancouver. All three are ultra high quality and accomplished Canadians and I am grateful for their service.

## **The Dakshana Endowment**

In 2013, at the suggestion of Ruyintan “Ron” Mehta, we started the Dakshana Endowment. Dakshana's donors now have a choice. They can designate their contributions to be used immediately on our Dakshana Scholar program or it can go into the endowment. Funds in the endowment are slated to be invested in a highly concentrated manner. And at the end of every year 5% of the endowment's value is spent towards the Dakshana Scholar program.

Ron seeded the endowment with a generous \$50,000 contribution. The cost to support one scholar is approximately \$2500 and Ron figured that right off the bat, the endowment would be able to fully support at least one new scholar completely every year.

**Table 5. Dakshana's Endowment**

<b>2013 Dakshana Endowment Overview</b> (in US\$)	
Cash and Marketable Securities on 12/31/12:	<b>\$0</b>
Contributions by Donors:	\$173,350
Spending on Dakshana Scholar Program:	(\$8,450)
Investments Gains (Loss):	\$21,832
Cash and Marketable Securities on 12/31/13:	<b>\$186,732</b>

We also directed all the proceeds from the various auctions to the endowment. I am very pleased to report that we received over \$170,000 in endowment funds in 2013. We estimated (and slightly underspent) our expected 5% and will fix that in 2014. The good news is that, the endowment is off to a robust start and is already around \$200,000 in size and able to support at least four scholars a year. I fully expect that the endowment will support a growing number of scholars every year. And donors now have the choice to designate their contributions to go either towards current scholar support or the endowment.

### **Ebay Lunch Auction**

Last year's winner was Narendra Mulani with a bid of \$17,000 which he generously rounded up to \$25,000. We had a wonderful dinner at Bukhara Grill in New York City earlier this year. My good friend, Ray Flatinsky, encountered bidding glitches on Ebay and suggested that if I was up for a 30 minute conference call with him and up to four friends (including the much coveted stock tip!), he and his friends would donate \$50,000 to Dakshana. Of course, I said yes! I wish my dad were alive and I could tell him that folks wanna chat on the phone with his son at over \$1600/minute ☺. We had a nice call and, when the dust settled, Ray and his friends sent Dakshana, not \$50,000 as promised, but rather \$86,250! Thank you Ray, Willy, Michael, Alex and Ron. You could not have picked a better cause.

We also auctioned off a second Munger bust for \$7600. The winner (again) was Hemant Amin from Singapore. Hemant now has two busts that he intends to pass on to his two kids. All told, the auctions brought in a total of \$118,850. And they got our endowment off to a roaring start.

We are out of Munger busts, but will do two auctions this year. One would be the usual lunch auction and the second would be a 30 minute conference call. Both are rumored to include a stock tip. Our fourth annual lunch/conference call auctions will be held in October/November 2014 on Ebay. In the true spirit of market-driven auctions, the bidding will start at \$0.01 for both, with no minimum. The lunch auction winner will get my not-so-old wallet as well. It is rumored that there may be a stock tip in there (again with no reps and warranties). As an aside, I do know that the 2011, 2012 and 2013 auction winners did act decisively on the little notes in the wallets they received. I suspect they will bid again. But folks, please don't make it easy for them. Your mission in life is to make the final winner truly pay up.

The guidelines remain the same. The winner can bring up to 7 folks with him/her. The lunch will take place anywhere in Southern California or New York, or in any of India's metro cities, or another mutually agreeable alternate location. Anything is fair game to discuss, except specific stocks. Of course, you can ask about the stock tip. And I'll personally pick up the tab.

The conference call auction is designed to level the playing field. Anyone can bid on Ebay. The call, which will be arranged at a mutually agreeable time can have up to 7 participants. I will give a stock tip on the call (with no reps or warranties!) and will answer any questions related to that stock tip (or anything else the participants would like to discuss). The only topic off limits at both auctions is discussions on any current portfolio holdings (other than the stock tip).

### **The Charles T. Munger Hall**

A dream of mine, The Charles T. Munger Hall, is well on its way to becoming reality. Dakshana is spending about \$350,000 and the government is spending around \$3 million on the build-out. Did I mention that I love our *equal* partner, the Government of India? Construction is underway, but the pace is slow. This is mostly due to repeated delays on the part of the government in paying contractor invoices. When invoices aren't paid, the work comes to a grinding halt. Dakshana has limited leverage in trying to get the government to move, but we are trying our best. I am cautiously optimistic that we can inaugurate the facility in 2015. The Hyderabad campus may be reality by 2018. The good news is that Ananda Valley gives us a robust alternate platform to grow. In fact, I moved aggressively on Ananda Valley to get Dakshana on a solid growth path regardless of how quickly the government decides to move.

### **Online IIT Coaching**

Avanti Fellows is an independent NGO that Dakshana has collaborated with for several years. In 2012, we picked 23 JNV scholars for online coaching by Avanti from the results of our selection test. These 23 scholars were relocated to JNV Puducherry, and Avanti provided online JEE Advanced coaching to these 23 scholars for two years. These 23 scholars got 100% of their coaching through a satellite link with Vidya Mandir in New Delhi. Dakshana's alumni at IIT Madras visited JNV Puducherry on weekends to work with these kids. The results were spectacular. 11 of these 23 kids were accepted by the IITs – a 44% success rate. And because Vidya Mandir essentially gifted their services, the costs were negligible.

Dakshana had hoped to begin replicating Avanti's online coaching model at a few locations in 2014, but JNV management dragged its feet and did not support the initiative. The paucity of dorms and classroom availability makes it difficult, but we'll figure out a way. The ROI improvements are too big to ignore. Stay tuned.

## 2014 JEE Results

It is always instructive to look at our detailed JEE results. Here is a summary of our 2014 JEE results for the 259 scholars we selected in 2012.

**Table 5. 2014 JEE Results**

<b>Dakshana's Class of 2014 JEE Results</b>								
<b>Total Scholars Who Took the JEE</b>

It is important that this scholar success (and lack thereof) is accurately presented in these annual reports. It is our primary method of benchmarking how we are doing. Some alums who retake the IIT entrance exam neglect to keep us informed. We went back through all the past annual reports and compared the data presented to the best available data we have today and noticed minor differences. To set the record straight, we are relisting all our IIT acceptance data since inception. You can go to your grave a very happy person if you elect to never read the next three pages.

Here goes:

Intake Year	JNV Location	Total Scholars	IIT-JEE Year	Accepted by IIT

## **The Team**

The deal I have with Team Dakshana is that they do the work and I take the bows. Both parties have kept their end of the bargain. We are forever grateful to our CEO, Colonel Ram Sharma and our COO, Sharmila Pai. It is a difficult job which they execute with grace and a smile.

Warmly,

A handwritten signature in dark ink, appearing to read 'Mohnish Pabrai', with a long, sweeping horizontal line extending from the end of the signature.

## Dakshana Alumni - Careers Launched!

<u>Scholar Name</u>	<u>From</u>	<u>Employer</u>	<u>Institute</u>
<b>2010</b>			
Monisha D. S.	Kodagu, Karnataka	Accenture	PES Institute of Technology
Monjit Nunisa	Karbi Anglong, Assam	Reinspire Tech	NIT Silchar
Moti Prakash Panda	Cuttack, Odisha	Tata Consultancy Services	NIT Rourkela
Naveen S. N.	Bengaluru, Karnataka	Igate	NIT Surathkal
Nirakar Rout	Koraput, Odisha	Gupta Power & Infrastructure Ltd	NIT - Rourkela
Palamasi Vipru Chanukya	Andhra Pradesh	Dakshana Foundation	NIT Agartala
Poovanna K. P.	Kodagu, Karnataka	Emcsqare	NIT Surathkal
Prabartika Sahoo	Cuttack, Odisha	ABB india limited	NIT Rourkela
Prashant Gedam	Raipur, Chhattisgarh	Tata Consultancy Services	NIT - Rourkela
Priyanka Giri	Bengaluru, Karnataka	Furtwangen University of Applied Sciences	BMS Institute of Technology
Rajan Kumar	Bokaro, Jharkhand	Tata Consultancy Services	IIT Kharagpur
Rajiv Krishna Omar	Fatehpur, Uttar Pradesh	Sam Research	IIT Kanpur
S. K. Amarnath	Udupi, Karnataka	Infibeam.com	NIT Surathkal
Sachin M. Naik	North Canara, Karnataka	ZS Associates	NIT Surathkal
Sanjay Y. R.	Chikmagalur, Karnataka	Tejas Network	NIT Surathkal
Santosh M. Bhat	North Canara, Karnataka	Bosch limited	NIT Surathkal

## Dakshana Alumni - Careers Launched!

<u>Scholar Name</u>	<u>From</u>	<u>Employer</u>	<u>Institute</u>
<b>2010</b>			
Shamanth Kumar D. N.	Bengaluru, Karnataka	Citicorp Services	IIT Madras
Shreesha S. Chatra	Shimoga, Karnataka	Dakshana Foundation	IIT Indore
Shridevi N. D.	Chikmagalur, Karnataka	Musigma	University of Vishweshwaraiah College of Engineering
Shriman Narayan Tiwari	Raipur, Chhattisgarh	Target.com	IIT Kanpur
Sumit Singh	Kanpur Dehat, Uttar Pradesh	Central Reserve Police Force	
T. Ashok Kumar	Ranga Reddy, Andhra Pradesh	Google	IIT Bombay
Thopucherla Varun	Warangal, Andhra Pradesh	Dakshana Foundation	NIT Warangal
Varsha Prakash Ahire	Nashik, Maharashtra	Thermax	NIT Surat
Venkatesh N. Gudikoti	Koppal, Karnataka	Expicent Software	NIT Surathkal
Venu Gopal J.	Bellary, Karnataka	EXL Services	NIT Surathkal
Vipin Das A. V.	Palakkad, Kerala	Vodafone	IIT Madras
Wairokpam Premkumar Singh	Thoubal, Manipur	Govt. Primary School	D M College of Science

## Dakshana Alumni Information

<u>Scholar Name</u>	<u>From</u>	<u>Institute</u>	<u>Institute Location</u>	<u>Stream of Study</u>
<b>2008</b>				
Shashank Dubey	Jabalpur, Madhya Pradesh	Maharashtra Institute of Technology	Pune, Maharashtra	Petroleum Engineering
Bhanu Bhakta Upadhyay	Golaghat, Assam	NIT Silchar		Electronics and Communication Engineering
<b>2009</b>				
Sebin A. J.	Kannur, Kerala	Amal Jyothi College of Engineering	Kanjirapally, Kerala	Mechanical Engineering
Sonu Kumar	Muzaffarpur, Bihar	Bengal College of Engineering and Technology	Kolkata, West Bengal	Electronics and Communication Engineering
Ankit Anand	Banka, Bihar	Bhagalpur College of Engineering	Bhagalpur, Bihar	Mechanical Engineering
Devendra Balaji Shinde	Latur, Maharashtra	Bharati Vidyapeeth College of Engineering	Navi Mumbai, Maharashtra	Chemical Engineering
Komal Kisan Gade	Pune, Maharashtra	Bharati Vidyapeeth College of Engineering	Pune, Maharashtra	Electronics & Telecommunications Engineering
Snehal Ashok Pawar	Satara, Maharashtra	Bharati Vidyapeeth College of Engineering	Pune, Maharashtra	Electronics and Communication Engineering
Biplab Biswas	Kanker, Chhattisgarh	Bhilai Institute of Technology	Durg, Chhattisgarh	
Rahul Rai	Gopalganj, Bihar	Bhilai Institute of Technology	Durg, Chhattisgarh	Computer Science Engineering
Abhinay Kumar	Vaishali, Bihar	Birbhum Institute of Engineering and Technology	Birbhum, West Bengal	Mechanical Engineering
Amit Kumar Dwivedi	Kanpur Nagar, Uttar Pradesh	Birla Institute of Technology	Ranchi, Jharkhand	Computer Science Engineering
Rahul Kumar Ranjan	Vaishali, Bihar	Birla Institute of Technology	Ranchi, Jharkhand	Architectural Engineering
Jaideep Singh	Ranga Reddy, Andhra Pradesh	Birla Institute of Technology & Science	Hyderabad, Andhra Pradesh	Mechanical Engineering
Devaraja G. P.	Dhamanagri, Karnataka	BMS College of Engineering	Bengaluru, Karnataka	Electronics and Communication Engineering
Supreeta S.	Koppal, Karnataka	BMS College of Engineering	Bengaluru, Karnataka	Information Technology Engineering
Subramanya Gajanan Shetti	Uttara Kannada, Karnataka	BV Bhoomaraddi College of Engineering and Technology	Hubli, Karnataka	Electronics and Communication Engineering
Gampala Babji	East Godavari, Andhra Pradesh	Chaitanya Bharati Institute of Technology	Hyderabad, Andhra Pradesh	Computer Science Engineering
Ankush Thareja	Patiala, Punjab	Chitkara University	Solan, Himachal Pradesh	Electrical and Communication Engineering
Akram Ansari	Bhojpur, Bihar	Choudhary Charan Singh Agricultural University	Hisar, Haryana	Agricultural Engineering
T. Brahmini	Hanamkonda, Andhra Pradesh	Christ Jyothi Institute of Technology and Science	Warangal, Andhra Pradesh	Computer Science Engineering

## Dakshana Alumni Information

<u>Scholar Name</u>	<u>From</u>	<u>Institute</u>	<u>Institute Location</u>	<u>Stream of Study</u>
<b>2009</b>				
Akshay Manglekar	Belgaum, Karnataka	Christ University	Bengaluru, Karnataka	Science

College Of Engg.*), **Yanzi Sherpa** (*Sikkim Govt College*), **Ubaidullah** (*GMCH, Guwahati*), **Eragdaro Brahma** (*ICFAI*), **Rupak Som** (*NEHU Shillong*), **Pranjal, Dharmendra Meena, Chingmei, Sudhir Yadav, Arvind Kumar Gupta, Deeparam, Veeresh, Jitendra, Bobloo. Greeshma, Rishabh Shukla** (*IIT Guwahati*), **Uttam, Heerok, Monjit & Deepak** (*NIT Silchar*)

**\*DAAN-Dakshana Alumni Network**

**You can fully support one Dakshana Scholar for just US\$3.25/day!**

Over a two-year period, the cost of supporting a Dakshana Scholar is just US\$3.25 a day. For less than a cost of a latte at Starbucks, you can lift a family from poverty permanently and get the scholar accepted by IIT.

Dakshana or you can identify the specific scholar you are supporting. We will acknowledge your gift on the scholar's profile. Dakshana's staff can arrange visits with the scholar at JNV as well. While the financial support would end after 2 years, the mentoring and guidance can continue for decades.

Dakshana will auto-bill your credit card once a month for US\$99. This will continue for 24 months. After 24 months, you could choose to extend by selecting another scholar to support, if you so desire.

**Dakshana Endowment**

Dakshana also has an endowment account. You can select your gift to go into operating funds or our endowment. If endowment is selected, 5% of the balance every year will be moved to the operating account. Endowment funds are managed by Mohnish Pabrai and are invested in equities in a very concentrated manner. The endowment helps your dollars go further.

**Please send U.S. checks to:**
