Please write essay (in English or Hindi) between 300 - 500 words which begins with:

I'd like to become a Dakshana Scholar and hopefully attend ^{AIPMT} HT because of my great
desire to become a doctor. To become a doctor was
not just a wish or casual ambition for me, but it was
a burning desire. It is none other than the god,
who could save a person from the hands of death.
So doctors are like visible gods to his patients.
The word DOCTOR was not just a six letter word for
me, it was my dream profession which I started aiming
for years before.

My first inspiration towards this profession
was from my dear parents, but unfortunately I
was a bad student of science at that time.
It was from sixth standard that I started loving
science. It was my science teacher, who took me to
the amazing world of science. He was really an ocean
of knowledge. His hardwork & dedication was not in
vain & gradually I along with all my classmates got
attracted towards science. I will be always thankful
to him.

Even though my desire hardened, I was helpless
to find a way to fulfill it. My parents were not in
a good economic condition to send me to a world-class

AIPMT coaching institute. There came 'Dakshana' with its helping hands. I appeared in NDST and by the prayers and blessings from parents, teachers & friends I somehow got selected in it.

I am very glad to become a Dakshana scholar. The Dakshana foundation is really doing a great job. They are the only helping hands for a lot of poor families. It is the only opportunity for a lot of poor brilliant students to reach their aim. The Dakshana classes have world-class facilities & are also rich with skilled faculties.

Today in the world of busy business men always thinking for the way to raise more and more money, it is hard to find people like Mr. Manish Pabrai who is ready to sponsor such a large no. of students. Hats off to him. I am very glad to become a Dakshana scholar & I will always use my opportunity properly. I will always work hard to improve my academic status & will try my best to give the best results.
