## The Dakshana Foundation

### Application to Become a Dakshana Scholar

Dakshana Scholars are brilliant, but impoverished students who aspire to attend a premier engineering/medical college, but cannot afford to be coached professionally by a world-class coaching institute. The Dakshana Foundation provides comprehensive scholarships to gifted/impoverished adolescents who meet our criteria. These scholarships include 100% of coaching fees and books. In order to be eligible to apply for becoming a Dakshana Scholar, you must be invited to appear for and qualify in the Navodaya Dakshana Selection Test (NDST). The decision of Dakshana in this regard is final.

Dakshana reserves the right to validate the information provided through various sources including NVS records, Principal and school staff interviews, peer, neighbours, school alumni and direct verifications. Should any information be found to be willfully falsified, Dakshana reserves the right to deny acceptance as a Dakshana scholar and /or terminate coaching at any time after it has started.

I hereby do attest that all of the information submitted in this application is correct and authentic and that I meet all of the criteria mentioned to apply for being named a Dakshana Scholar:

Please write essay (in English or Hindi) Between 300 - 500 words which begins with

I'd like to become a Dakshana Scholar and hopefully attend Engineering/Medical college because IIT's are one among the most prestigious institutions which provide world class education. Now-a-days getting into IITs not only require brains but also money in one's pockets. But will all the bright <sup>minds</sup> be able to afford this? Yes, impoverished students like me won't even get an opportunity to get into such institutions unless monetary help is granted. Here, is the importance of non-profitable organisations like Dakshana which provide coaching at 'nil' cost unlike any other coaching centres where money is a big factor.

Looking through another perspective, as I scroll through the rank list of JEE advanced, I could find very very less number of girls in the list. Is it because girls can't do this? No, it's because of perceptions, prejudices and preassumptions; of course, of ours as well as the society.

Changing things or making things happen really seem to be difficult. But I think that there is no harm in trying as long as Dakshana supports me.

And, there are lots of big engineers in India, great in their field, but useless to their society. As the man behind Dakshana said, "he wanted to "feed the man for

a lifetime," even I am ready to take this challenge. Even I want to do something for the society, I want to change things and make things happen, and never forget from where I came from & what I was. And here, I would hopefully like to be a Dakshana scholar.

(You can use this form or a separate piece of paper. Please submit the essay in your own handwriting)
