The Dakshana Foundation Application for Dakshana Scholar

Dakshana Scholars are gifted, but impoverished students who aspire to attend The Indian Institute of Technology (IIT), but cannot afford to be coached professionally by a world-class IIT JEE coaching institute. The Dakshana Foundation provides comprehensive scholarships to gifted/impoverished adolescents who meet our criteria. These scholarships include 100% of tuition, boarding, lodging, books and incidentals. In order to be eligible to apply for becoming a Dakshana Scholar, ALL of the following conditions must be met:

1. You have cleared the entrance test of either Bansal Classes, Career Point, Resonance, Insight or FIIT JEE and done well enough for the management of the institute to confirm to Dakshana that the odds of your getting into IIT after 1-2 years of coaching are 25% or better. For example, at Bansal Classes, there are about 10,000 students who take the Bull's Eye entrance test and 2000 are accepted. In order to meet this criteria, you would need to have ranked in the top 25% of the 2000 accepted (1st 500).
2. The total typical household monthly income (total income of all members of your immediate family) is under Rs. 7,000 per month.
3. The total assets of your immediate family (including any savings, real estate or property) is under Rs. 1 Lakh.
4. You fully meet the IIT JEE Eligibility Criteria. See <http://www.jee.iitb.ac.in/eligibility.htm>
5. The Dakshana Foundation believes that the beneficiary of aid today is the donor of tomorrow. We believe that helping gifted, impoverished students get a world-class education has a very high return on invested resources to the individual, the family and the entire community. Dakshana Scholars have a voluntary moral (but not a legal or contractual) obligation to donate 10% of their monthly lifetime earnings back to the Dakshana Foundation to fund future Dakshana Scholars. They could also choose to give to any other charity of their choice. Or they can choose to give nothing. The choice is yours and we accept whatever you decide. After a few years, we fully expect Dakshana to be sustained and grow from this voluntary giveback and help an increasing number of impoverished and gifted children every year.

I hereby do attest that all of the information submitted in this application is correct and authentic and that I meet all of the above mentioned criteria to apply for being named a Dakshana Scholar:

Please write an essay (in English or Hindi) of upto 500 words which begins with:
(you can use this form or a separate piece of paper. Please submit the essay in your own handwriting)

I'd like to become a Dakshana Scholar and hopefully attend IIT because it is the competitive era. Lots of candidates are appearing in exams where vacancies are just of hundreds. For this people are spending a lot of money for coaching and other equipments related to exam. Here resources like money, plays a big role in preparation. Middle class students suffer much because their parents can't afford them such high facilities. It diverts the direction of students having excellent caliber. The reason behind it is that though they have brilliancy but they can't find guidance of such world class standards which are needed for the top ranking and thus they work hard but their direction is not to the point and they can't get the success upto mark or less.

"But where there is a will there is a way". Then organisation like "Dakshanya" are the rays of hope for the poor students. It provides them facilities and high standard guidance, so that they can accomplish their aim.

I belongs to rural background and we are fully depend on agriculture. There are no any such

institute which can guide us for I.I.T. Being an I.I.Tian is my most cherished dream. I would like to change the standard of my society. I would also donate my income to such institute which helps to poor students to accomplish their dream.

Today there are many examples in many field which bring the brilliant from darkness and provide them high standard facility to rise like morning sun. Once they become successful their whole surrounding change.

Being after I.I.Tian I will work hard to become of an engineer of high class. I will try my best to eradicate corruption in this job. My direction will be towards making India a developed nation in the world by it is yet to be go high. I will try my best in developing new technology and it will help in countries progress.
